

UK Shared Prosperity Fund Outputs and Outcomes 25/26

TDC are expecting to receive a high volume of applications during the open call for projects which will run from 7th April to 1st June 2025; applications will be competitive and, as part of assessing projects for their value for money, the Team will be relying on the outputs and outcomes designed by Central Government to help make recommendations to our Members about which projects should be taken forward.

All projects must deliver one or more of the following listed outcomes in order to be considered for funding. Outputs and outcomes have been grouped by Government into the following categories:

- Business and Community Assets (Blue)
- Enterprises (Yellow)
- Events and Activities (Red)
- People and Users (Green)
- Others (White)

Any outputs and outcomes can fit under any of the 3 UKSPF Themes (Communities & Place, Supporting Local Business, or People & Skills) where appropriate. Please tick all those which are relevant to your project, and include an amount on your main application form. Council Officers will then use these as part of the value for money considerations of your application.

For example, if your project is to refurbish a village hall, you might tick 'Amenities/Facilities created or improved' and 'People reached', then include on your main application form that 1 facility will be improved, and estimate how many people will be reached by having this improved facility, so perhaps 1,000 people reached. For outcomes, you might choose 'Increased users of facilities/amenities' and estimate that the village hall will see an increase of 10% in its users once it has been refurbished. Exact figures are not required; logical, reasonable estimates will be accepted.

Outputs

Output	✓	Output	✓
Commercial space completed or improved		People participating in adult numeracy provision	
Green or blue space created or improved		Adults participating in maths qualifications and courses up to, and including, Level 2 equivalent (numerical value)	
Public realm created or improved		People reached	
Rehabilitated land		People receiving support to gain employment	
Amenities/facilities created or improved		People receiving support to sustain employment	
Low or zero carbon energy infrastructure installed		People retraining	
New or improved cycle ways or foot paths		People supported to access basic skills courses	
Tourism, culture or heritage assets created or improved		People supported to participate in education	
Enterprises receiving grants		Households receiving support	
Enterprises receiving non-financial support		Households supported to take up energy efficiency measures	
Potential entrepreneurs assisted to be enterprise ready		Organisations receiving grants	
Local events or activities supported		Organisations receiving non-financial support	
Tournaments supported		Volunteering opportunities supported	
Economically inactive people engaging with keyworker support services		Feasibility studies developed as a result of support	

Outcomes

Outcome	✓	Outcome	
Increased number of properties better protected from flooding and coastal erosion		Number of organisations engaged in knowledge transfer activity following support	
Increased use of cycleways or foot paths		Number of R&D (Research & Development) active enterprises	
Number of vacant units filled		Improved engagement numbers	
Increased users of facilities/amenities		Number of community-led arts, cultural, heritage and creative programmes as a result of support	
Increased visitor numbers		Number of people in employment, including self-employment, following support	

Increase in visitor spending		Number of people sustaining employment for 6 months	
Premises with improved digital connectivity as a result of support		Number of people in education/training following support	
Jobs created as a result of support		Number of people with basic skills following support	
Jobs safeguarded as a result of support		People gaining a qualification or completing a course following support	
Number of new enterprises created as a result of support		Number of adults achieving maths qualifications up to, and including, Level 2 equivalent	
Number of enterprises adopting new or improved products or services		Number of people reporting increased employability through development of interpersonal skills	
Number of enterprises adopting new to the firm technologies or processes		Estimated carbon dioxide equivalent reductions as a result of support	
Number of enterprises engaged in new markets		Decreased neighbourhood crimes	
Number of enterprises with improved productivity		Number of volunteering opportunities created as a result of support	
Number of new to market products		Number of projects arising from funded feasibility studies
