01 COMPLIANCE REQUIRED: COMMENCEMENT TIME LIMIT

CONDITION: The works to which this consent relate must be begun not later than the expiration of three years beginning with the date of this consent.

REASON: To comply with the requirements of Section 18(1) of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004

NOTE/S FOR CONDITION:

The development needs to commence within the timeframe provided. Failure to comply with this condition will result in the consent becoming lapsed and unable to be carried out. If commencement takes place after the time lapses this may result in unlawful works at risk of both Enforcement Action and Criminal proceedings. You should only commence works when all other conditions requiring agreement prior to commencement have been complied with.

02 APPROVED PLANS & DOCUMENTS

CONDITION: The development hereby permitted shall be carried out in accordance with the drawings/documents listed below and/or such other drawings/documents as may be approved by the Local Planning Authority in writing pursuant to other conditions of this permission or such drawings/documents as may subsequently be approved in writing by the Local Planning Authority as a non-material amendment following an application in that regard (except for Listed Building Consents). Such development hereby permitted shall be carried out in accordance with any Phasing Plan approved, or as necessary in accordance with any successive Phasing Plan as may subsequently be approved in writing by the Local Planning Authority prior to the commencement of development pursuant to this condition.

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

02 COMPLIANCE REQUIRED

CONDITION: Areas within the curtilage of the site for the purpose of loading/unloading/reception and storage of building materials and manoeuvring of all vehicles, including construction traffic shall be provided clear of the highway and public right of way footpath no. 14.

REASON: To ensure that appropriate loading/unloading facilities are available to ensure that the highway is not obstructed during the construction period in the interest of highway safety.

03 COMPLIANCE REQUIRED: PUBLIC RIGHT OF WAY

CONDITION: The public's rights, accessibility and ease of passage over public footpath no. 14 (Parish Ardleigh- 158) shall be maintained free and unobstructed at all times.

REASON: To ensure the continued safe passage of the public on the definitive right of way.

04 ACTION REQUIRED: HIGHWAYS TURNING SPACE AND PARKING

CONDITION: The proposed development shall not be occupied until two car parking spaces (minimum dimensions of 2.9 metres x 5.5 metres) with an associated turning area, to be previously approved in writing by the Local Planning Authority, have been provided. The agreed car parking and turning area shall be retained at all times for such purpose.

REASON: To ensure that an appropriate level of parking is provided in order that on street parking of vehicles in the adjoining streets/roads does not occur.

05 ACTION REQUIRED: CYCLE PARKING

CONDITION: Prior to occupation details of cycle parking shall be submitted to and approved in writing by the Local Planning Authority. The approved facility shall be secure, convenient, covered and provided prior to occupation and retained at all times.

REASON: To ensure appropriate cycle parking is provided in the interest of highway safety and the promotion of alternative forms of sustainable transport.

requirements to comply with the Wildlife and Countryside Act 1981 (as amended), the Countryside and Rights of Way Act 2000, the Conservation (Natural Habitats etc.) Regulations 1994 or any Acts offering protection to wildlife. All birds (except those listed in schedule 2 of the Wildlife and Countryside Act 1981), their nests and eggs are protected by law. It is an offence to intentionally or recklessly kill, injure or take any wild bird, or damage, destroy or intentionally disturb the nest of any wild bird whilst it is in use or being built. For this reason tree work should not be undertaken during the nesting season (broadly March to August) unless a survey for nesting birds confirms their absence. Should you require any further information on nesting birds, please contact Natural England on 03000 603900.

- 2) You are advised that trees have the potential to support roosting bats. Bats and their roosts are legally protected. It is an offence to disturb or harm a bat, or damage, destroy or obstruct any place used by bats for shelter, whether they are present or not. Trees should be inspected before any works commence and if the presence of bats is suspected works must cease and advice sought from The Bat Conservation Trust on 0845 1300228.
- 3) This decision is valid for two years from the date of this decision or until the work is completed, whichever is the sooner. You are advised that the appropriate standards for tree work are set out in British Standard 3998:2010. Failure to ensure the proposed works are carried out to these standards may result in damage to the tree(s) and may result in legal action by the Council.
- 4) The council not objecting to/approving the proposal does not give the legal right for a person to enter another person's land to prune or fell their tree(s). Permission should be sought from the tree owner before works to a tree(s) are carried out.

03 SPECIFIC RESTRICTION ON DEVELOPMENT: OCCUPATION

CONDITION: This permission shall only authorise the use and occupation of the accommodation hereby approved for purposes incidental and ancillary to the principal dwelling known as 7 Bromley Close, Clacton on Sea (or as may be renamed in the future) and does not permit the use of the approved accommodation as a separate household unrelated and not incidental/ancillary to the principal dwelling.

REASON: The proposed annexe would not be acceptable under the established policies of Local Plan and NPPF by representing a net increase in dwelling units were the development to be occupied as an unrelated dwelling and not considered as one household. Furthermore, having regard to its particular relationship with the principal dwelling, there is potential for noise, activity and disturbance detrimental to the amenity of that principal dwelling were the development to be occupied as an unrelated dwelling.

NOTE/S FOR CONDITION

Unless otherwise stated, this condition applies to the site outlined in red and to all new development that forms any net increase in residential accommodation and may include change of use of buildings, change of use of land for the siting of caravans or similar, new buildings and extensions.

01 COMPLIANCE REQUIRED: COMMENCEMENT TIME LIMIT

CONDITION: The development hereby permitted shall be begun not later the expiration of three years from the date of this permission.

REASON: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

NOTE/S FOR CONDITION:

The development needs to commence within the timeframe provided. Failure to comply with this condition will result in the permission becoming lapsed and unable to be carried out. If commencement takes place after the time lapses this may result in unlawful works at risk Enforcement Action proceedings. You should only commence works when all other conditions requiring agreement prior to commencement have been complied with.

REASON: For the avoidance of doubt.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

- 01 COMPLIANCE REQUIRED: COMPLETION TIME LIMIT

CONDITION: The work authorised by this Decision Notice must be completed within two years of the date of this Notice. If the work is not completed within this period, for whatever reason, the authority to proceed expires.

REASON: To ensure that the permitted works are arboriculturally appropriate.

NOTE/S FOR CONDITION:

- 1) Please note that any approval given to by the Council does not give an exemption from the requirements to comply with the Wildlife and Countryside Act 1981 (as amended), the Countryside and Rights of Way Act 2000, the Conservation (Natural Habitats etc.) Regulations 1994 or any Acts offering protection to wildlife. All birds (except those listed in schedule 2 of the Wildlife and Countryside Act 1981), their nests and eggs are protected by law. It is an offence to intentionally or recklessly kill, injure or take any wild bird, or damage, destroy or intentionally disturb the nest of any wild bird whilst it is in use or being built. For this reason tree work should not be undertaken during the nesting season (broadly March to August) unless a survey for nesting birds confirms their absence. Should you require any further information on nesting birds, please contact Natural England on 03000 603900.
- 2) You are advised that trees have the potential to support roosting bats. Bats and their roosts are legally protected. It is an offence to disturb or harm a bat, or damage, destroy or obstruct any place used by bats for shelter, whether they are present or not. Trees should be inspected before any works commence and if the presence of bats is suspected works must cease and advice sought from The Bat Conservation Trust on 0845 1300228.
- 3) This decision is valid for two years from the date of this decision or until the work is completed, whichever is the sooner. You are advised that the appropriate standards for tree work are set

out in British Standard 3998:2010. Failure to ensure the proposed works are carried out to these standards may result in damage to the tree(s) and may result in legal action by the Council.

4) The council not objecting to/approving the proposal does not give the legal right for a person to enter another person's land to prune or fell their tree(s). Permission should be sought from the tree owner before works to a tree(s) are carried out.

02 Condition - a replacement tree shall be planted in the first planting season following the removal of the tree. It shall be planted in the same or as close as possible to the same location as the tree to be felled. The tree shall be a Silver Birch (*Betula pendula*) with a girth of 10 to 12 cm or other species as agreed in writing with the local planning authority prior to the planting of the tree.

Reason - To ensure that existing tree cover is retained at approximately the same level and to maintain the current amenity value provided by an established tree.

01 Paragraph 208 identifies that where a development proposal will lead to less than substantial harm to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal including, where appropriate, securing its optimum viable use.

Adopted Policy PPL9 states proposals for new development affecting a listed building or its setting will only be permitted where they will protect its special architectural or historic interest, its character, appearance and fabric.

The application site falls within the Harwich Conservation Area, and on this occasion the development will result in less than substantial harm to the setting of this Conservation Area through one of the dwellings being set back and thereby not according with the prevalent

<i>Application No.</i>	<i>Applicant's Name</i>	<i>Proposal</i>	<i>Location</i>

building line along George Street, the height of Dwelling B matching Number 23 which does not accord with the historical character, a lack of fenestration at ground floor level, and the flat roof form to Dwelling A is not in-keeping with the prevailing pitched roof forms relevant through the Harwich Conservation Area.

The Council is able to comfortably demonstrate a sufficient housing land supply, and while the site forms part of a wider area targeted for regeneration purposes it is noted that George Street itself is of a good visual appearance and the erection of two dwellings on the currently vacant site would not result in any significant regeneration of the area. Consequently, there are no public benefits that outweigh the identified harm, and therefore, the proposed development is not considered to be contrary to the above local and national planning policies.

02 Paragraph 167 of the NPPF (2023) confirms that all plans should apply a sequential, risk-based approach to the location of development, taking into account all sources of flood risk and the current and future impacts of climate change, so as to avoid, where possible, flood risk to people and property. This should be done by initially applying the Sequential Test and then, if necessary, the Exception Test.

Adopted Policy PPL1 states all development proposals will be considered against the National Planning Policy Framework's 'Sequential Test', to direct development toward sites at the lowest risk of flooding, unless they involve land specifically allocated for development on the Policies Maps or Local Maps.

Having assessed the information submitted, as the site falls within Flood Zones 2 and 3 the sequential test should be applied District wide, and as such there are a significant number of reasonably available alternative sites which could contain the development that are located within areas with a lower probability of flooding that are therefore considered sequentially preferable to the application site. The Council therefore does not agree that the sequential test requirement has been satisfied. As such, the proposal is considered to be unacceptable and contrary to the above national and local planning policies.

03 Adopted Local Plan Policy LP4(j) states that the design and layout of new residential developments will be expected to provide for private amenity space of a size and configuration that meets the needs and expectations of residents, and which is commensurate to the size of dwelling and the character of the area.

On this occasion, the three bedroom dwelling is served by a small balcony that measures approximately 7.5sqm, and no private amenity is provided for the two bedroom dwelling. There is an outdoor area to the rear of the site, however this is shown to be hardstanding and/or served by parking spaces and cycle storage, and consequently is not an area that would be an attractive proposition for future occupiers. Therefore, the proposal has failed to provide a level of private amenity space that is of a size and configuration that would be acceptable for the future occupants of both properties, and therefore fails to comply with the above policy requirement.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

01 Paragraph 135 of the NPPF (2023) requires that developments are visually attractive as a result of good architecture, are sympathetic to local character, and establish or maintain a strong sense of place.

Policy SP7 of the 2013-33 Local Plan seeks high standards of urban and architectural design which responds positively to local character and context, and to protect the district's landscape and the quality of existing places and their environs. Policy SPL3 and LP4 of the 2013-33 Local Plan also require, amongst other things, that developments deliver new dwellings that are designed to high standards and which, together with a well-considered site layout which create a unique sense of place.

<i>Application No.</i>	<i>Applicant's Name</i>	<i>Proposal</i>	<i>Location</i>
<i>Decision</i>			
<i>Date of Decision</i>			
<i>Conditions/Reasons</i>			

In this instance, the revised layout proposes an increase in areas of hard surfacing and the removal of key sections of landscaping and tree planting. This is particularly noticeable within the area at the western end of the site, which was previously a planted island feature within the development and is now shown as predominantly paved parking areas. Moreover, at the eastern end of the development the pockets of planting previously approved, which provided a softened entrance into the site, have been removed and the re-location of parking bays to the front of plots 38-42 has resulted in a negative impact upon the aesthetics of the development at its entrance.

As such, the significant increase in hardstanding combined with the removal of areas of planting and the relocation of parking bays to the front of properties represents a detrimental impact and would result in an overly engineered and car dominant development which would not represent a high standard of urban design and fail to create a sense of place, contrary to the aims and aspirations of the aforementioned local and national planning policies.

02 Paragraph 114 of the National Planning Policy Framework (2023) seeks to ensure that safe and suitable access to a development site can be achieved for all users. Paragraph 115 of the Framework states that Development should only be prevented or refused on highways grounds if there would be an unacceptable impact on highway safety, or the residual cumulative impacts on the road network would be severe.

Adopted Policy CP1 (Sustainable Transport and Accessibility) of the Tendring District Local Plan 2013-2033 states that planning permission will only be granted if amongst other things; access to the site is practicable and the highway network will be able to safely accommodate the additional traffic the proposal will generate and the design and layout of the development provides safe and convenient access for people.

In this instance it has not been sufficiently demonstrated that the proposal would be acceptable in terms of highway safety and efficiency compared with the previous internal layout drawing associated with application: 22/01920/DETAIL. In particular, the proposal would lead to the creation a number of substandard shared accesses onto the main spine road where the lack of suitable visibility from the proposed accesses and parking bays, for both emerging and approaching vehicles, would result in an unacceptable degree of hazard to all road users to the detriment of general highway safety and contrary to the aforementioned local and national planning policies.

03 Paragraph 136 of the NPPF sets out the importance of trees and the contribution they make to the character and quality of urban environments. It states that planning policies and decisions should ensure that opportunities are taken to incorporate trees in developments and that existing trees are retained wherever possible. Local Plan Section 2 Policy LP4 relates to housing layout and states; to ensure a positive contribution towards the District's 'sense of place', the design and layout of new residential developments will be expected to incorporate and maximise the use of green infrastructure, verges, trees and other vegetation. Policy PPL3 states that the Council will protect the rural landscape.

The application is not supported by sufficient information in relation to the existing trees on, and adjacent to the site. Therefore, the application fails to demonstrate that the development proposal will not cause harm to the trees that contribute positively and provide an important screening function, thus being contrary to Paragraph 136 of the NPPF and Local Plan Policies

03 ONGOING REQUIREMENT IMPOSED - NOISE RESTRICTIONS & WORKING TIME LIMITS

CONDITION: Throughout the construction phase of the development hereby approved, no machinery (all fixed and hand machinery) on site or as may be brought on site, as defined by the red line plan with regard to this permission, shall be operated on the site (including inside any buildings) before 08:00 and after 18:00 Monday - Fridays, with works or before 08:00 and after 13:00 on Saturdays, nor at any time on Sundays, Bank Holidays or Public Holidays.

REASON: In the interest of the amenity of neighbouring residents having regard to the background noise levels in the area.

NOTE/S FOR CONDITION:

- 1) This condition shall engage and restricts the operation of the development from the first commencement of the use. This condition is imposed to ensure the development avoid unreasonable impact on the residential amenity of neighbouring dwellings, especially given the location of the development. Without the imposing of this condition, the development would be refused due to the risk of harm and this condition is considered necessary, enforceable and reasonable in all other respects.
- 2) This condition does not include vehicles (for example HGVs) capable of using the public highway in the definition of machinery as these are not fixed to the site and/or building/s nor regarded as hand machinery.

04 VISIBILITY SPLAYS

CONDITION: There should be no obstruction above ground level within a 2.4-metres wide parallel band visibility splay as measured from and along the nearside edge of the carriageway across the entire site frontage. Such vehicular visibility splays shall be provided prior to first occupation and retained free of any obstruction at all times.

Reason: To provide adequate inter-visibility between users of the access and the public highway in the interests of highway safety in accordance with policy DM1.

05 VEHICULAR TURNING FACILITY

CONDITION: Prior to occupation of the hereby approved dwelling a minimum size 5 (8m x 8m) vehicular turning facility, shall be retained, and maintained free from obstruction within the site at all times for that sole purpose.

Reason: To ensure that vehicles can enter and leave the highway in a forward gear in the interest of highway safety in accordance with policy DM1.

06 GATES

CONDITION: Any gates retained at the vehicular access shall be inward opening only and shall be set back a minimum of 6 metres from the back edge of the footway or where no provision of footway is present, the carriageway.

Reason: To enable vehicles using the access to stand clear of the carriageway whilst gates are being opened and closed and to allow parking off street and clear from obstructing the adjacent footway/cycleway/carriageway in the interest of highway safety in accordance with policy DM1.

07 BOUNDARY PLANTING

CONDITION: Any new boundary planting shall be planted a minimum of 1 metre back from the highway boundary and any visibility splay.

Reason: To ensure that the future outward growth of the planting does not encroach upon the highway or interfere with the passage of users of the highway, to preserve the integrity of the highway and in the interests of highway safety and in accordance with Policy DM1.

08 SURFACE TREATMENT

No unbound material shall be used in the surface treatment of the vehicular access within 6 metres of the highway boundary.

Reason: To avoid displacement of loose material onto the highway in the interests of highway safety in accordance with policy DM1.

09 ACTION REQUIRED: PROVISION OF CYCLE PARKING

CONDITION: Prior to first occupation, details for the provision of secure, covered cycle parking facilities shall be submitted to and approved in writing by the Local Planning Authority. The approved facility shall be installed prior to occupation and retained thereafter at all times.

Reason: To ensure appropriate bicycle parking is provided in the interests of encouraging sustainable transport.

10 CONDITION: No development shall commence above slab level until a scheme for the provision and implementation of water, energy and resource efficiency measures for the lifetime of the development shall be submitted to and approved, in writing, by the Local Planning Authority. The scheme shall include as a minimum:-

- Agreement of a scheme for water conservation including greywater recycling and rainwater capture/re-use for replacement dwelling.
- Agreement of a scheme to achieve as far as possible a water consumption rate of not more than 110 litres, per person, per day for replacement dwelling.
- Agreement of heating of the hereby approved dwelling/building
- Agreement of scheme for waste reduction

<i>Application No.</i>	<i>Applicant's Name</i>	<i>Proposal</i>	<i>Location</i>

<i>Conditions/Reasons</i>			

- Provision of a fibre optic broadband connection to the best possible speed installed on an open access basis and directly accessed from the nearest exchange, incorporating the use of resistant tubing. (If the applicant is unable to achieve this standard of connection, and can evidence through consultation that this would not be possible, practical or economically viable an alternative superfast (i.e. will provide speeds greater than 30mbps) wireless service will be considered.)

The scheme shall be fully implemented prior to the first occupancy of the development unless otherwise agreed in writing by the Local Planning Authority. The scheme shall be constructed and the measures provided and made available for use as may be agreed and thereafter shall be maintained.

REASON: To enhance the sustainability of the development through reduced need, better use or savings in the use of water, energy and resources; reduced harm to the environment; and result in wider public benefit in accordance with the NPPF.

NOTES FOR CONDITION:

Slab level normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visualised above ground level or seek confirmation from the Local Planning Authority for your development.

Broadband provision is included to ensure the development is able to be equipped with high speed broadband to enable opportunities for web-based communication and homeworking reducing the need for unsustainable travel.

A water consumption rate of not more than 110 litres, per person, per day adopted as Planning Policy and as imposed by this condition will directly change the building regulations water consumption rate to match as a result of this policy. The introduction of effective utilities, rainwater capture for watering plants, aerators to taps and other water saving options can be considered.

11 ACTION REQUIRED: REFUSE BINS AND COLLECTION AREAS

CONDITION: Prior to occupation of the dwelling hereby approved the area to be provided for storage of refuse/recycling bins as shown on the approved drawing number P07 Rev A shall be provided and then retained in perpetuity.

REASON: In the interest of highway safety to ensure that refuse recycling bins do not cause any obstruction or danger on the highway.

NOTE/S FOR CONDITION:

It is an OFFENCE to carry out works within the public highway, which includes a Public Right of Way, without the permission of the ECC Highway Authority. Any conditions which involve work within the limits of the public highway do not give the applicant permission to carry them out. Unless otherwise agreed in writing all works within the public highway shall be carried out by Essex County Council or its agents at the applicant's expense.

12 APPROVAL REQUIRED: LANDSCAPING SCHEME

CONDITION: No development above slab level shall take place until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of hard, soft and boundary treatment landscaping works for the site, which shall include any proposed changes in ground levels.

REASON: In the interests of visual amenity and the character and appearance of the area.

NOTE/S FOR CONDITION:

Slab level is normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visually above ground level or seek confirmation from the Local Planning Authority for your development.

Should the landscape works include any new hedgerow, please consider the following planting for a native hedge. Native hedge: 50% hawthorn, 25% blackthorn (but beware - this can spread into adjacent fields), 15% field maple, 2% holly, 2% wild privet, 2% guelder rose, 2% dog rose, 2% buckthorn.

13 COMPLIANCE WITH DETAILS AND TIMESCALE REQUIRED - LANDSCAPING SCHEME

CONDITION: All changes in ground levels, soft/hard landscaping shown on the approved landscaping details shall be carried out in full during the first planting and seeding season (October - March inclusive) following the commencement of the development, or in such other phased arrangement as may be approved, in writing, by the Local Planning Authority up to the first use/first occupation of the development. Any trees, hedges, shrubs or turf identified within the approved landscaping details (both proposed planting and existing) which die, are removed, seriously damaged or seriously diseased, within a period of 10 years of being planted, or in the case of existing planting within a period of 5 years from the commencement of development, shall be replaced in the next planting season with others of similar size and same species unless otherwise agreed in writing by the Local Planning Authority.

REASON: To ensure that the approved landscaping scheme has sufficient time to establish, in the interests of visual amenity and the character and appearance of the area.

14 COMPLIANCE REQUIRED: LANDSCAPE PROTECTION

CONDITION: Prior to commencement of development the existing Oak tree on the site, shall be protected by the erection of temporary protective fences as detailed in BS Fencing details - Received 01.05.04. The protective fences shall be retained throughout the duration of building and engineering works in the vicinity of the tree to be protected. Any trees dying or becoming severely damaged as a result of any failure to comply with these requirements shall be replaced with a tree or trees of appropriate size and species during the first planting season, or in accordance with such other arrangement as may be approved, in writing, with the Local Planning Authority up to first use or first occupation of the development, following the death of, or severe damage to the tree/s.

in the interests of visual amenity and the character and appearance of the area. This condition is required to be carried out prior to the commencement of any other development to ensure trees are protected early to ensure avoidance of damage or lost due to the development and/or its construction. If agreement was sought at any later stage there is an unacceptable risk of lost and damage to trees.

- 15 **CONDITION:** Prior to occupation of the hereby approved dwelling and for the avoidance of doubt the existing mobile dwelling on site shall be removed in its entirety to ensure only one permanent dwelling on site.

Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

<i>Conditions/Reasons</i>			

REASON: For the avoidance of doubt and in the interests of proper phased planning of the development.

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.

03 **CONDITION:** The development site hereby approved is exclusively designated for holiday purposes of the occupier/s only and shall not be utilised as a person's sole or main place of residence nor permanent residential dwelling of individuals not engaged in such holiday purpose at any time, including any other purpose in Class C3 of the Schedule to the Town and Country Planning (Use Classes) Order 1987 as amended. Furthermore, the following restrictions shall apply:-

1. Occupation Period: The duration of occupation by any one person shall not exceed more than 100 days in any given year (Jan to Dec) and no continuous occupation period of an individual person shall exceed 28 days without a break of at least 7 days between occupation.
2. Primary Residence Prohibition: The approved development site shall only be occupied by persons who have available an alternative primary residential address, it shall not be utilised as a person's sole or main place of residence.
3. Register of Occupants: A comprehensive register containing the names, full details of permanent home addresses, and vehicle registrations (if travelling by car) of occupants shall be maintained for all periods of occupation each year. This register must be made available to the Local Planning Authority for inspection at any time in a form that can be digitally provided upon request, and all records shall be retained for a minimum of ten years.

REASON: The site of the permission is outside any area where planning permission would normally be forthcoming for residential development without either harm or conflict with planning policies. The development is expressly permitted for holiday use to contribute significantly to local tourism and the economic well-being of the area. This contribution is considered

paramount, justifying the exceptional approval of this development that would otherwise be a departure of the Local Plan and unsustainable development.

NOTE FOR CONDITION: Holiday Purpose: This term refers to the usage of the development site for short-term stays, primarily for recreational or leisure purposes, individuals occupying the site are doing so for holidays and vacations. Continuous Occupation: Continuous occupation, as mentioned in the condition, indicates the uninterrupted stay of an individual on the development site. In this context, the condition restricts the continuous occupation of any individual person to no more than 28 days without a break of at least 7 days between periods of occupation. This restriction is designed to ensure that the site is not used as a permanent residence and aligns with its intended holiday purpose to generate active tourism within the District.

04 CONDITION: No development shall commence above slab level until a scheme for the provision and implementation of water, energy and resource efficiency measures for the lifetime of the development shall be submitted to and approved, in writing, by the Local Planning Authority. The scheme shall include as a minimum:-

- An electric car charging point scheme;
- Agreement of a scheme for water conservation including greywater recycling and rainwater capture/re-use;
- Agreement of heating of each building; and
- Agreement of scheme for waste reduction.

The scheme shall be fully implemented prior to the first occupancy of the development unless otherwise agreed in writing by the Local Planning Authority. The scheme shall be constructed and the measures provided and made available for use as may be agreed and thereafter shall be maintained.

REASON: To enhance the sustainability of the development through reduce need, better use or savings in the use of water, energy and resources; reduce harm to the environment; and result in wider public benefit in accordance with the NPPF.

NOTE/S FOR CONDITION:

Slab level is normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visually above ground level or seek confirmation from the Local Planning Authority for your development.

The greatest threat to our planet is the belief that someone else will save it and also forgetting that small acts, when multiplied by millions of people, can transform the world. Developments will provide buildings/homes to thousands/millions of people over their lifetime. A well designed sustainable development in the beginning will restrict the contribution each person makes to that threat and help enable them to transform the world.

05 CONDITION: Prior to the commencement of development details of the construction methodology and timetable shall be submitted to and approved, in writing, by the Local Planning Authority. This shall incorporate the following information:-

<i>Application No.</i>	<i>Applicant's Name</i>	<i>Proposal</i>	<i>Location</i>
<i>Decision</i>			
<i>Date of Decision</i>			
<i>Conditions/Reasons</i>			

- a) Details of the hours of work/construction of the development within which such operations shall take place and the hours within which delivery/collection of materials for the said construction shall take place at the site.
- b) Details of the loading/unloading/storage of construction materials on site, including details of their siting and maximum storage height.
- c) Details of how construction and worker traffic and parking shall be managed. This shall include routing of all traffic and any directional signs to be installed and where.
- d) Details of any protection measures for footpaths and trees surrounding the site.
- e) Details of any means of access to the site during construction.
- f) Details of the scheduled timing/phasing of development for the overall construction period.
- g) Details of measures to control the emission of dust and dirt during construction, and including details of any wheel washing to be undertaken, management and location it is intended to take place.
- h) Details of the siting of any on site compounds and portaloos.
- i) Details of the method of any demolition to take place, including the recycling and disposal of said materials resulting from demolition.
- j) Site waste management plan (that shall include reuse and recycling of materials)
- k) Scheme for sustainable construction management to ensure effective water and energy use.
- l) Scheme of review of complaints from neighbours.
- m) Registration and details of a Considerate Constructors Scheme
- n) Details on the provision, location and management of any show home/s or reception, including opening times, parking and advertisements (including flags and directional signs).

The said methodology as may be approved shall be implemented in its entirety and shall operate as may be approved at all times during construction.

REASON: To minimise detriment to nearby residential and general amenity by controlling the construction process to achieve the approved development. This condition is required to be agreed prior to the commencement of any development as any construction process, including site preparation, by reason of the location and scale of development may result adverse harm on amenity.

NOTE/S FOR CONDITION:

You are strongly advised to discuss this condition with the Local Planning Authority and if possible/available local residents likely to be affected by this development prior to submission of details.

06 **CONDITION:** Prior to first occupation of the hereby approved development, the vehicle parking area indicated on the approved plans shall be hard surfaced and sealed. The vehicle parking area and associated turning area shall be retained in this form at all times. The vehicle parking shall not be used for any purpose other than the parking of vehicles that are related to the use of the development unless otherwise agreed in writing with the Local Planning Authority.

REASON: To ensure that on street parking of vehicles in the adjoining streets does not occur in the interests of highway safety.

07 **CONDITION:** The public's rights and ease of passage over public footpaths nos. 14 and 15 (Thorpe Le Soken_180) shall be maintained free and unobstructed at all times.

<i>Conditions/Reasons</i>			

REASON: To ensure the continued safe passage of the public on the definitive right of way and accessibility.

08 CONDITION: Any new boundary planting shall be planted a minimum of 1 metre back from the highway boundary.

REASON: To ensure that the future outward growth of the planting does not encroach upon the highway or interfere with the passage of users of the highway, to preserve the integrity of the highway and in the interests of highway safety.

09 CONDITION: No development above slab level shall take place until there has been submitted to and approved, in writing, by the Local Planning Authority a scheme of hard, soft and boundary treatment landscaping works for the site, which shall include any proposed changes in ground levels.

REASON: In the interests of visual amenity and the character and appearance of the area.

NOTE/S FOR CONDITION:

Slab level is normally refers to the concrete slab supported on foundations or directly on the subsoil and is used to construct the ground floor of the development. In any other case, please assume slab level to be the point before any walls and/or development can be visually above ground level or seek confirmation from the Local Planning Authority for your development.

Should the landscape works include any new hedgerow, please consider the following planting for a native hedge. Native hedge: 50% hawthorn, 25% blackthorn (but beware - this can spread into adjacent fields), 15% field maple, 2% holly, 2% wild privet, 2% guelder rose, 2% dog rose, 2% buckthorn.

10 CONDITION: All changes in ground levels, soft/hard landscaping shown on the approved landscaping details shall be carried out in full during the first planting and seeding season (October - March inclusive) following the commencement of the development, or in such other phased arrangement as may be approved, in writing, by the Local Planning Authority up to the first use/first occupation of the development. Any trees, hedges, shrubs or turf identified within the approved landscaping details (both proposed planting and existing) which die, are removed, seriously damaged or seriously diseased, within a period of 10 years of being planted, or in the case of existing planting within a period of 5 years from the commencement of development, shall be replaced in the next planting season with others of similar size and same species unless otherwise agreed in writing by the Local Planning Authority.

REASON: To ensure that the approved landscaping scheme has sufficient time to establish, in the interests of visual amenity and the character and appearance of the area.

11 CONDITION: Prior to the first occupation of the hereby approved development, all mitigation and enhancement measures and/or works shall be carried out in accordance with the details contained in the Flood Risk Assessment prepared by Geosphere Environmental Ltd and received dated 10th May 2024.

<i>Conditions/Reasons</i>			

REASON: In order to prevent flooding and ensure effective treatment of surface water runoff.

- 12 **CONDITION:** Prior to first use of the hereby permitted development a maintenance plan detailing the maintenance arrangements including who is responsible for different elements of the surface water drainage system and the maintenance activities/frequencies, has been submitted to, and agreed in writing by, the Local Planning Authority. Maintenance shall be carried out as approved in accordance with the details and timescales in the plan.

REASON: To ensure appropriate maintenance arrangements are put in place to enable the surface water drainage system to function as intended to ensure mitigation against flood risk.

- 13 **CONDITION:** The applicant or any successor in title must maintain yearly logs of maintenance for the hereby approved SuDS which should be carried out in accordance with any approved Maintenance Plan. These must be available for inspection upon a request by the Local Planning Authority.

REASON: To ensure the SuDS are maintained for the lifetime of the development as outlined in any approved Maintenance Plan so that they continue to function as intended to ensure mitigation against flood risk.

- 14 **CONDITION:** Prior commencement of proposed works, a detailed layout of the proposed woodland walk, including specifications of materials to be used for the construction of new trails and features to be installed within the registered park, including wayfinding signage, maps, installations, shall be submitted to and approved in writing by the Local Planning Authority. The approved layout shall be accorded too thereafter.

REASON: In the interests of protecting the character and appearance of Thorpe Le Soken Conservation Area and the Grade II Listed Park and Garden of Thorpe Hall.

- 15 **CONDITION:** If during construction/demolition works evidence of potential contamination is encountered, works shall cease, and the site fully assessed to enable an appropriate remediation plan to be developed. Works shall not re-commence until an appropriate remediation scheme has been submitted to, and approved in writing by, the Local Planning Authority and the remediation has been completed.

Upon completion of the building works, this condition shall not be discharged until a closure report has been submitted to and approved in writing by the Local Planning Authority. The closure report shall include details of;

- a) Details of any sampling and remediation works conducted and quality assurance certificates to show that the works have been carried out in full in accordance with the approved methodology.
- b) Details of any post-remedial sampling and analysis to show the site has reached the required clean-up criteria shall be included in the closure report together with the necessary documentation detailing what waste materials have been removed from the site.
- c) If no contamination has been discovered during the build, then evidence (e.g. photos or letters

from site manager) to show that no contamination was discovered should be included.

REASON - To ensure that any risks from land contamination to the future users of the land and neighbouring land are minimised.

16 **CONDITION:** All mitigation and enhancement measures and/or works shall be carried out in accordance with the details contained within the Preliminary Ecological Appraisal (Practical Ecology, July 2023), Hazel Dormouse Method Statement (Practical Ecology, February 2024) and Assessment of Effect and Mitigation Strategy (Practical Ecology, February 2024).

REASON: In order to safeguard protected wildlife species and their habitats in accordance with the NPPF and Habitats Regulations.

17 **CONDITION:** Any works which will impact the breeding / resting place of Great Crested Newt, shall not in in any circumstances commence unless the local planning authority has been provided with either:

- a) a licence issued by Natural England pursuant to Regulation 55 of The Conservation of Habitats and Species Regulations 2017 (as amended) authorizing the specified activity/development to go ahead; or
- b) a GCN District Level Licence issued by Natural England pursuant to Regulation 55 of The Conservation of Habitats and Species Regulations 2017 (as amended) authorizing the specified activity/development to go ahead; or
- c) a statement in writing from the Natural England to the effect that it does not consider that the specified activity/development will require a licence.

REASON: In order to safeguard protected wildlife species and their habitats in accordance with the NPPF and Habitats Regulations.

18 **CONDITION:** Prior to first occupation of the hereby approved development, a Biodiversity Enhancement Strategy for protected and Priority species shall be submitted to and approved in writing by the local planning authority. The content of the Biodiversity Enhancement Strategy shall include the following:

- a) Purpose and conservation objectives for the proposed enhancement measures;
- b) detailed designs or product descriptions to achieve stated objectives;
- c) locations, orientations, and heights of proposed enhancement measures by appropriate maps and plans;
- d) timetable for implementation demonstrating that works are aligned with the proposed phasing of development;
- e) persons responsible for implementing the enhancement measures;
- f) details of initial aftercare and long-term maintenance (where relevant).

The works shall be implemented in accordance with the approved details prior to occupation and shall be retained in that manner thereafter.

REASON: To enhance protected and Priority species and habitats.

19 **CONDITION:** Any external lighting that is to be installed, shall, prior to installation, be the subject of an external lighting scheme, which shall be submitted to and agreed in writing by the local planning authority. Once agreed the external lighting scheme shall be installed only in accordance with the agreed details.

REASON: To conserve and enhance protected and Priority species.

20 **CONDITION:** No development shall take place until a scheme of archaeological evaluation of the site, including timetable, has been submitted to and approved in writing by the Local Planning Authority (including any demolition needing to be carried out as necessary in order to carry out the evaluation). The evaluation shall be carried out in its entirety as may be agreed.

REASON: To safeguard archaeological assets within the approved development boundary from impacts relating to any groundworks associated with the development scheme and to ensure the proper and timely investigation, recording, reporting and presentation of archaeological assets affected by this development. This condition is required to be agreed prior to the commencement of any development to ensure matters of archaeological importance are preserved and secured early to ensure avoidance of damage or loss due to the development and/or its construction. If agreement was sought at any later stage as there is an unacceptable risk of loss and damage to archaeological and historic assets.

21 **CONDITION:** No development shall take place until a written report on the results of the archaeology evaluation of the site has been submitted to the Local Planning Authority and that confirmation by the Local Planning Authority has been provided that no further investigation work is required in writing.

Should the Local Planning Authority require further investigation and works, no development shall take place on site until the implementation of a full programme of archaeological work has been secured, in accordance with a Written Scheme of Investigation which has been submitted to and approved in writing by the Local Planning Authority.

The scheme of investigation shall include an assessment of significance and research questions; and:

- a. The programme and methodology of site investigation and recording.
- b. The programme for post investigation assessment.
- c. Details of the provision to be made for analysis of the site investigation and recording.
- d. Details of the provision to be made for publication and dissemination of the analysis and records of the site investigation.
- e. Details of the provision to be made for archive deposition of the analysis and records of the site investigation; and
- f. Nomination of a competent person or persons/organisation to undertake the works set out within the Written Scheme of Investigation.

The written scheme of investigation shall be carried out in its entirety prior to any other development taking place, or in such other phased arrangement including a phasing plan as may be previously approved in writing by the Local Planning Authority.

REASON: To safeguard archaeological assets within the approved development boundary from impacts relating to any groundworks associated with the development scheme and to ensure the proper and timely investigation, recording, reporting and presentation of archaeological

NOTE/S FOR CONDITION:

The primary role of this condition is to confirm the approved plans and documents that form the planning decision. Any document or plan not listed in this condition is not approved, unless otherwise separately referenced in other conditions that also form this decision. The second role of this condition is to allow the potential process of Non Material Amendment if found necessary and such future applications shall be considered on their merits. Lastly, this condition also allows for a phasing plan to be submitted for consideration as a discharge of condition application should phasing be needed by the developer/s if not otherwise already approved as part of this permission. A phasing plan submission via this condition is optional and not a requirement.

Please note in the latest revision of the National Planning Policy Framework (NPPF) it provides that Local Planning Authorities should seek to ensure that the quality of approved development is not materially diminished between permission and completion, as a result of changes being made to the permitted scheme (for example through changes to approved details such as the materials used). Accordingly, any future amendment of any kind will be considered in line with this paragraph, alongside the Development Plan and all other material considerations.

Any indication found on the approved plans and documents to describe the plans as approximate and/or not to be scaled and/or measurements to be checked on site or similar, will not be considered applicable and the scale and measurements shown shall be the approved details and used as necessary for compliance purposes and/or enforcement action.
