Guidance on Statutory Criteria for a Town & Country Planning Act 1990 Order

1. Tendring District Council as the competent authority may by Order authorise the stopping up or diversion of any footpath, bridleway or restricted byway if they are satisfied that it is necessary to do so to enable development to be carried out in accordance with planning permission granted under Part III of the Act.
2. An order under the Act, if the competent authority is satisfied that it should do so, provides for the creation of an alternative highway for use as a replacement for the one authorised by the Order to be stopped up or diverted, or for the improvement of an existing highway for such use; for authorising or requiring works to be carried out in relation to any footpath, bridleway or restricted byway for whose stopping up or diversion, creation or improvement provision is made by the Order; for the preservation of any rights of statutory undertakers in respect of any apparatus of theirs which immediately before the date of the Order is under, in, on, over, along or across any such footpath, bridleway or restricted byway; for requiring any person named in the Order to pay, or make contributions in respect of the cost of carrying out any such works.
3. Planning permission granted does not mean that the public right of way will therefore automatically be diverted or stopped up, the disadvantages or loss likely to arise because of the stopping up or diversion of the way to members of the public generally or to persons whose properties adjoin or are near the existing highway should be weighed against the advantages of the proposed Order.
